

BIOGRAPHY

Darrin B. Green

Associate, Munro & Associates, Inc.

Darrin, previous to Munro & Associates, has been a survey coordinator with METCO Services with ten years' experience specializing in Exhibit B condominium documents and a total of twenty years' experience in the survey profession.

As a project leader for METCO, Darrin was responsible for condominium quotes, production of Exhibit B documents and coordinating all condominium projects with the client, attorney, architect, engineer and the county reviewing agent. Darrin was also responsible for quality control and follow through to achieve recording of the condominium Exhibit B documents. Darrin has worked as project leader on a variety of important projects including The Watermark Detroit, Fort Shelby Hotel Condominium, Riverfront Towers Condominium, Lottivue Riverside Development, and English Village at Islandview.

At Munro & Associates, Darrin coordinates with our US counterparts internationally in Italy, Brazil and China in scheduling the necessary meetings for redesign and new vehicle part reviews. Proactive data management of all proposed component designs is key to the successful implementation of a new product and maintaining team communication amongst personnel from all regions is critical in new product launch.

Through Munro & Associates Darrin has also been involved with standardizing our clerical and charting systems. He was also in charge of the documentation and media capture of the vertical windturbine prototype including the onsite build at the Vale Creighton Mine in Sudbury Ontario.

Darrin has training and experience in AutoCAD Civil 3D 2010, Adobe Photoshop, all Microsoft Office programs, and AutoCAD 2008 with Autodesk Land Desktop.
