

BIOGRAPHY

Danielle A. Rueter

Associate Engineer, Munro & Associates, Inc.

Danielle A. Rueter holds a Bachelor Degree from Trine University located in Angola, Indiana. She majored in Chemistry with a minor in Forensic Science. While attending Trine University Danielle's activities included Women's Soccer (2010-2012), Women's Lacrosse (2010-2013), National Society of Leadership and Success (2011-Current), American Chemical Society (ACS) (2010-2014), Treasurer of ACS (2013-2014), Trine University Future Forensic Scientists (TUFFS) (2011-2014), Student Government (2012-2013), Alpha Sigma Tau Sorority (2011-2014), Social Chair & Nominations (2011-2012), Recruitment Chair (2012-2013), Recruitment Captain/advisor (2013-2014), College Panhellenic Council (CPH) (2012-2014), CPH Recruitment Director (2013-2014)

Danielle also cared for her community and volunteered for the local United Way, a local *safe place*, Kiwanis Ghost Town, Riley's Children bowling fundraiser, and make cookies at Angola High School to help the students fundraise.

While still attending college, Danielle interned at Royal Adhesive and Sealants. She was able to work with water based polymers to help create different adhesives and sealants to customer specification.

During the year following graduation Danielle decided to stay working at her current job, Gay's Hops-N-Schnapps. She was promoted to night manager around the time of graduation. This came with many more responsibilities including; making end of the day deposits, closing the store using company's internal system and policies, specialized customer service, helping with liquor or beer delivery, assisting part time employees, and inventory. Danielle enjoyed volunteering with United Way enough to continue helping out the year after her graduation which included; planning fundraising events, taking care of paper work, advertising, and assisting with those who needed help.

After about a year off Danielle thought she wanted to attend graduate school for Public Administration. She decided to move to Michigan where she got a job at Munro and Associates March of 2015. She started off as a facilities assistant helping keep the facility clean and organized. She was then promoted to Office Administrator of April 2015. Her responsibilities include management of office related activities, human resources, and accounting support. She was promoted again to an Associate Engineer after a year of perusing her Masters in Materials Engineering. Her responsibilities include detailed tear down and mapping of customer specific products. Followed by a thought out process with possible discussion on how to redesign the product to make it more cost efficient and an easier assembly process.
