

# **BIOGRAPHY**

## **Cory Steuben (BSME, ME)**

Sr. Engineering Associate, Munro & Associates, Inc.

Cory Steuben joined Munro & Associates in September of 2005, shortly after starting his education at Kettering University in Flint, Michigan. Kettering's Mechanical Engineering program is consistently rated as one of the top programs by US New's top colleges. Cory completed his undergraduate thesis in synergy with Munro & Associates and received the highest honor of "Pass with Distinction".

Cory Steuben's post-collegiate career has blossomed through positive relationships with several tier 1 and OEM automotive companies. He has a proven track record conducting internal Product and Process Integration (PPIW) reviews and Digital Scroll Builds (DSB). During the PPIW and DSB activities, Cory engages a multi-disciplined array of stakeholders throughout the company. He builds trust amongst the product and process teams and delivers results by optimizing the design with diverse input from the stakeholder team.

Cory has conducted several high-profile technological investigations for OEM's. These investigations include; High voltage electronics, vehicle architecture, powertrain integration, aerospace manufacturing, hybrid technologies, seat systems, electronic park brake systems and many more.

Cory has accumulated a broad knowledge base in several manufacturing disciplines including but not limited to: injection molding, sand casting, stamping, forging, CNC machining, powdered metal, and die casting. Cory has also been exposed to a vast array of assembly processes, designs, and strategies in the automotive, aerospace, industrial, medical, and defense industries.

Since 2005 Mr. Steuben has quickly progressed through Munro & Associates. In August of 2011 Cory was promoted to Senior Associate and Design Prophet, becoming the youngest commissioned Design Prophet in Munro's 27 year history.

Cory earned a Bachelor of Science in Mechanical Engineering in December, 2009 from Kettering University in Flint, Michigan. He is a member of Sigma Chi Fraternity.
